

TOP-QUALITY ADHESIVES FOR ECOMMERCE PACKAGING

GLUECOM

OUR MISSION

We strive to lead the adhesive industry with products that are safe, reliable, and innovatively crafted to meet diverse needs. Our mission is to blend science and creativity, delivering adhesives that make bonding easier and stronger.

OUR PROCESS

Every adhesive formula is developed in our state-of-the-art labs, where chemists test, refine, and perfect each product. We emphasise rigorous testing for consistent quality, ensuring that our adhesives meet high safety and performance standards.

TREAT YOUR CUSTOMERS TO DEMCOMELT

THE BEST ECOMMERCE PSA'S IN THE MARKET

RESULTS

SAFE INGREDIENTS

Our Demcomelt line is crafted with non-toxic, allergen-free components that adhere to strict safety standards. The formulations are free from hazardous chemicals, making them safe for everyone.

INDUSTRY LEADING

We understand that reliable packaging is crucial for your e-commerce success. Our adhesives are specifically engineered to ensure your products reach customers safely and securely, every time.

OUR HIGH-PERFORMANCE PSA FOR PEEL 'N' SEAL: DEMCOMELT 80460

Engineered for high-speed operations, this fast-setting adhesive delivers outstanding durability for lightweight packaging materials. Its low viscosity and superior bond strength make it ideal for demanding applications where failure is not an option.

Features

- Exceptional bond strength
- Perfect for high-speed operations
- Consistent performance in varying conditions
- Ideal for paper, cardboard and solid board

Benefits:

- Runs smoothly on all modern packaging lines
- Reduces adhesive consumption
- Provides reliable security sealing
- Suitable for indirect food contact

THE SPECIALIST: DEMCOMELT 80260

Similar to 80460, but purpose-developed for flexible plastic substrates, this Pressure-Sensitive Adhesive creates exceptionally strong, lasting bonds. Its specialised formulation ensures optimal adhesion on low-energy surfaces.

Features

- Specially formulated for plastic materials
- Excellent adhesion on difficult surfaces
- High-speed application capable
- Perfect for modern mailer bags

Benefits:

- Optimised for faster production
- Reliable sealing on all plastic surfaces
- Cost-effective solution
- Suitable for indirect food contact

THE VERSATILE CHOICE:

DEMCOMELT 80650

This adaptable adhesive is created for opening strips on varied production scales, and delivers consistent performance across multiple substrate types. Its balanced properties make it an excellent choice for general packaging needs.

Features

- Reliable bonding on multiple substrates
- Excellent for varied applications
- Perfect for entry-level production lines

Benefits:

- Easy to use
- Consistent performance
- Versatile application

INDUSTRY-LEADING TESTING STANDARDS

We validate every adhesive through comprehensive performance testing, employing rigorous industry-standard methodologies to ensure consistent, reliable results you can trust. Our testing protocols exceed the real-world conditions that your packaging may encounter.

ADVANCED CREEP RESISTANCE

In sustained load testing, our entire Demcomelt Ecommerce series demonstrates outstanding bond durability under constant stress. All three formulations substantially surpass industry benchmarks in maintaining bond integrity, consistently outperforming competitor products in long-term stress resistance testing. This superior performance ensures your packaging maintains structural integrity even under challenging conditions.

SUPERIOR TACK STRENGTH

Initial bond security is crucial for packaging efficiency. Loop tack testing shows that each adhesive achieves exceptional immediate adhesion across diverse substrates. From flexible plastics to standard packaging materials, our adhesives consistently demonstrate higher tack strength compared to competitor products, ensuring reliable bonds even in variable conditions.

ONE SUPPLIER, COMPLETE SOLUTIONS

We understand that creating secure, efficient e-commerce packaging requires more than just excellent opening strips. That's why we offer comprehensive adhesive solutions for your entire production process.

Side Seam Excellence

- Full range of adhesives for every substrate
- Solutions for all production speeds
- Technical expertise to match your needs
- Proven performance across applications

Why Choose Gluecom:

- Single supplier simplicity
 - Local stock holding
 - Consistent technical support
 - Optimised adhesive combinations
 - Process efficiency expertise
 - Quality assurance across all applications
